more than twenty years after the ground breaking anthology this bridge called my back called upon feminists to envision new forms of communities and practices gloria e anzaldúa and analouise keating have painstakingly assembled a new collection of over eighty original writings that offers a bold new vision of women of color consciousness for the twenty first century written by women and men both of color and white this bridge we call home will challenge readers to rethink existing categories and invent new individual and collective identities

information and communication technology ict is central to reforming governance innovating public services and building inclusive information societies countries are learning to weave ict into their strategies for transforming government as enterprises have learned to use ict to innovate and transform their processes and competitive strategies ict enabled transformation offers a new path to digital era government that is responsive to the challenges of our time it facilitates innovation partnering knowledge sharing community organizing local monitoring accelerated learning and participatory development in transforming government and building the information society nagy hanna draws on multi disciplinary research on ict in the public sector and on his rich experience of over 35 years at the world bank and other aid agencies to identify the key ingredients for the strategic integration of ict into governance and poverty reduction strategies the author showcases promising practices from around the world to outline the strategic options involved in using ict to maximize developmental impact transforming government institutions and public services and empowering communities for inclusion and grassroots innovation despite the ict promise hanna acknowledges that reforming governance and empowering poor communities are difficult long term

undertakings hanna moves beyond the imperatives and visions of e transformation to strategic design and implementation options and draws practical lessons for policymakers reformers innovators community leaders ict specialists and development experts

how do companies like microsoft and wal mart rise to the top of their industries and dominate year after year while others like people express and la gear burn out after promising starts in changing the game eric flamholtz and yvonne randle two leading management consultants reveal that the key to success lies in how you transform your organization virtually all organizations face critical transition points in their life cycle when they must change how they play the game or perish flamholtz and randle focus here on three critical moments the move from entrepreneurial to professional management when a firm reaches a stage of growth where it can no longer operate in an informal unstructured way the revitalization of an established business that is losing ground to competitors and a radical change in a business vision the authors show for instance how american century investors made the transformation from a 50 million entrepreneurship to a professionally managed company with a market value of 2 billion how ibm one of the great american corporations was forced by the proliferation of pcs in the 1980s to overhaul its business to survive and how starbucks coffee originally a seattle coffee bean store was inspired by milans romantic coffee bars to recreate itself and transformed an entire industry the book concludes with a look at how one company bell carter olive company pulled together all the concepts and tools presented in the book and successfully changed the game changing the game provides a comprehensive framework and a set of tools for the strategic management of organizational transformation it will help managers meet the challenges of an increasingly competitive business environment

the general as well as the more scholarly discourse on democracy has long been guided by two contradictory assumptions on the one hand it has been assumed that there is a natural human predisposition to democracy an assumption increasingly prevalent and popular following the breakup of the soviet regime and many authoritarian regimes in southern europe and latin america on the other hand it has been assumed from their very inception that democratic regimes were aware of their fragility this awareness was built to some degree on the political discourse of antiquity but it was rooted above all in the direct experience of the modern era from the introduction paradoxes of democracy is an essay on the inherent weaknesses and surprising strengths of democratic government by one of the most productive and learned scholars in the social sciences shmuel eisenstadt opens with observations on divergent theories of democracy and closes with a discussion of mechanisms by which democratic regimes incorporate into their own structures the movements of protest that seem to challenge their existence in between he courses through the roots of democratic theory in modern culture the contradictions and tensions prompted by those roots and some of the historical manifestations of contradiction eisenstadt focuses on the most important conditions especially on different patterns of collective identity which influence the extent to which democratic regimes are able to incorporate themes of protest and social movements and thus ensure their common survival

in this third novel of the visions series the members of the foundation use the answers they have identified to twelve of mankind s oldest questions to transform society so that the overall level of consciousness can rise to such a degree that mankind can finally break the endless cycle of war and destruction their search to formulate the guiding principles by which society can be transformed leads them to a better understanding of the entire history of mankind on our planet discover the mysteries of atlantis and learn of

its connection to the current cycle of history dig even further back and find out about civilizations even older than atlantis and how mankind initially entered into the earth system their investigations reveal that each of us have counterpart selves alive in both this and other dimensions all with similar purposes for their lives finally follow the characters as they start their own rural community in the mountains as a way of beginning their own individual transformations and living the truth they have discovered their community represents a microcosm of the transformation they hope to spark

this anthology presents a balanced mix of classic and contemporary readings designed to appeal to a variety of anthropological approaches and perspectives it addresses topics such as religion gender and sexuality religion and the natural environment and religion and the human body

prayer is god s gift to us a banquet of good things to feed our inner life as we respond to the invitation to his feast of peace forgiveness challenge and love if our lives are an open book to god prayer is the dialogue we share with him over its pages the book of a thousand prayers is a collection of wise and honest prayers to god about his concerns and ours who he is to us and who we are to him and how we experience life death relationships the church and the world ideal for private prayer and public worship and containing practical advice on how to pray this book offers a spiritual feast that will nourish you for the rest of your life a moving and inspiring medley of prayers an invaluable aid for individuals home groups and those people who lead worship joyce huggett
